

## Forage Rainfall Plan 2008 Rainfall Station Locations

The following table shows the location of monitoring stations used to measure rainfall for the Forage Rainfall Plan. Agricorp field staff in consultation with local resources selected the locations. The locations were selected to optimize coverage across the forage growing areas of Ontario.

Rainfall Station Number	Rainfall Station Name	Lot	Concession	Geographic Township	Underwriting Area	Latitude	Longitude
7057314	Aberdeen	10	2	Aberdeen	Algoma	46.4684	-83.8135
