Your name and title (if different from above)

Section B: Agreement

By selecting the tax-aligned reference margin option, I agree that:

- I am enrolled or planning to enrol in AgriStability, and I will meet all program deadlines to ensure my coverage remains in good standing, including: (a) paying my AgriStability fee and (b) submitting my T1163 to the Canada Revenue Agency, or my Statement A to Agricorp.
- My estimated reference margin will be calculated using the same accounting method (either cash or accrual) that I use for my taxes.
- If I choose to submit a Year-end Report and Claim Form, Agricorp will calculate my program year margin on a modified accrual basis, and any payment I receive will be calculated based on my actual production.
- If I am part of a combined operation, all members of the whole farm are participating in the tax-aligned reference margin option and using the same method of accounting.
- If I received an interim payment for the current program year, the reference margin for my final payment may be calculated using a different method than the one used for my interim payment. If my interim payment is greater than my final payment, I will have to repay the overpayment.

I have read and agree to the terms outlined above.
