

Insurable Varieties

Tofu and Natto Soybeans

2024 Feature Sheet

Insurable varieties

Production Insurance for soybeans offers coverage for the following types of soybeans: conventional, tofu, natto, organic and pedigreed seed.

For more information about soybean coverage, please visit agricorp.com.

The table below includes all of the tofu and natto soybean varieties that are eligible for Production Insurance. If you are growing a soybean that does not appear on this list, please contact Agricorp.

Yield factor

A yield factor is applied to tofu and natto soybeans (where applicable) to establish an equivalent yield for common soybeans under conventional production. These factors are based on local yield data.

Eligible varieties for 2024

| Distributor | Type of soybean | Variety | Yield factor |
|-------------------------|-----------------|----------------|------------------|
| AGRIS Co-operative Ltd. | Tofu | DF 155 | No factor needed |
