

Rainfall Collection Sites

Forage Rainfall 2024 Feature Sheet

When you enroll in Production Insurance for forage rainfall, rainfall is collected in 0.2 mm increments by a third party. You may select up to three sites in the geographic township where you produce forage, or in an adjacent geographic township. If there are no rainfall collection sites in either of those locations, you may select the site closest to your forage production. Forage rainfall claims are calculated for each rainfall collection site you select based on your chosen coverage allocation by site. Your chosen allocations for your rainfall collection site(s) must add up to 100%. Your selected site(s) will be used for both insufficient and excess rainfall coverage options if you're enrolled in both.

To change your existing rainfall collection site, or to obtain location information (lot and concession) for a collection site, contact Agricorp. New collection sites and sites that have moved in 2024 are highlighted below.

Rainfall Collection Sites

| Collection site | County/Region | Geographic township |
|-----------------|---------------|---------------------|
| Aberdeen | Algoma | Aberdeen |
| Gladstone | Algoma | Bright |
| MacDonald | Algoma | MacDonald |
| Parkinson | Algoma | Parkinson |
| Plummer | Algoma | Plummer |
| Plummer 2 | Algoma | Plummer Additional |
| St. Joseph | Algoma | St. Joseph |
| Tarbutt | Algoma | Tarbutt |
| Thessalon | Algoma | Thessalon |
| Albermarle | Bruce | Albemarle |
