

# Planting Deadlines

## Spring-Seeded Grains and Oilseeds 2024 Feature Sheet

The planting deadline is the last day a crop can be planted to qualify for coverage. Planting deadlines vary by area, depending on the available crop heat units, soil features, historical claim rate experience, or other specific geographical characteristics. If you are unsure of your planting deadline, call Agricorp at 1-888-247-4999.

**Areas C and E are defined by municipal boundaries, as follows:**

|         |   |
|---------|---|
| Area C: | Niagara and Haldimand County and Tuscarora Township   |
| Area E: | Northern Ontario, the districts of Algoma, Cochrane, Kenora, Manitoulin, Muskoka, Nipissing, Parry Sound, Rainy River, Sudbury, Thunder Bay, Timiskaming, and the county of Haliburton. |

**Planting deadlines defined areas:**

If you are unsure of your planting deadline, call Agricorp.

**Source** – This map defines five specific planting areas and has been developed by Agricorp based on: consultation with industry and OMAFRA crop specialists; consideration of available crop heat units; Production Insurance historical claim rate experience and other specific geographical characteristics.

**Use good farm management practices when planting**

To maintain your Production Insurance coverage, you are expected to use good farm management practices at all times. Consider soil temperature and condition, weather forecast, seed quality, and seed treatments. Crops planted late in the season must use seed that is adapted for a shorter growing period. If you use practices that contribute to a production or reseed loss, you may lose some or all of your insurance coverage.

**Errors and omissions excepted.**

Agricorp reserves the right to make corrections if there are any errors or omissions on this feature sheet. For specific legal obligations of Production Insurance, consult the *Contract of Insurance: General Terms*. For details on the collection of information and treatment of records, refer to Section E of the *General Terms*.
