At a later date, we may review your yield declaration to verify the yield you reported. Keep this worksheet and all your bin measurements, settlement statements, receipts, and other supporting documents for at least six years.

## Record your yield of spring wheat

| Please use pen only | Spring wheat Dry yield in bushels |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Grades 1 and 2 | Grade 3 | Feed grade* | Other* |
| Crop sold and crop stored at elevator (not yet sold) |  |  |  |  |
| (-8) Crop fed to livestock |  |  |  |  |
| (-) Crop stored in round bins |  |  |  |  |

* Yields for spring wheat that are feed grade or lower will be reduced by a 30 per cent quality adjustment factor. That adjustment increases the probability and/or size of an eligible insurance claim.

## Call Agricorp

When you have finished calculating your yield, simply call Agricorp at 1-888-247-4999. The final date to report your yield is October 31.
Please be ready to answer the following questions:

1. How does this yield compare to your yields in recent years? (check one):

$$
\begin{array}{llll}
\text { Above average } \quad \square \quad \text { Average } \quad \square \quad \text { Below average } \quad \square
\end{array}
$$

2. If your yield is below average, what was the cause of loss?
3. How many acres did you harvest?

Total
4. On what date did you finish the harvest?

$$
\overline{m m} \quad \mathrm{dd}
$$

yyyy
5. Are any acres not harvested?
6. What was your yield per acre?
7. If you have on farm storage, did you obtain a sample test weight?

Note: Each year you build an average farm yield that reflects your production potential. Agricorp uses the yield you report to update this average. For customers who do not report their yield, Agricorp may substitute a yield value to establish the customer's average farm yield for the following year. Protect the equity you have built in your average farm yield by reporting your yield by October 31.
