Yield declaration worksheet White beans

Total acres:	Landlord (if applicable):		
Program year:	Sharecropper (if applicable):		
Date:	Your share:		
Note : To ensure the integrity of the Production Insuaccidental or willful misrepresentation. At a later da worksheet and all your bin measurements, settlements	ite, we may review your yield declaratio	n to verify the yield you reported. Keep this	
Record your yield of white beans			
Please use pen	only	White beans Dry yield in pounds*	
\$ Crop sold and crop stored at elevator (not yet	t sold)		
Crop stored in round bins			
Crop stored in square bins			
Crop stored in wagons (e.g., for seed)			
Report this total to Agricorp :			
*To convert tonnes to pounds, multiply the number of tonne	s by 2204.62.	,	
Call Agricorp			
When you have finished calculating your yield, call A	gricorp at 1-888-247-4999. The final da	te to report your yield is December 15 .	
Please be ready to answer the following questions:			
How does this yield compare to your yields in received.	ent years? (check one):		
Above a	verage Average	Below average	
2. If your yield is below average, what was the cause	e of loss?		
How many acres did you harvest?			
On what date did you finish the harvest?mm Are any acres unharvested?	7,7,7		
6. What was your yield per acre?			
7. If you have on farm storage, did you obtain sample	e test weights?		

Customer name:

Note: Each year you build an average farm yield that reflects your production potential. Agricorp uses the yield you report to update this average. For customers who do not report their yield, Agricorp may substitute a yield value to establish the customer's average farm yield for the following year. Protect the equity you have built in your average farm yield by reporting your yield by **December 15**.

Storage measurements White beans

Please use this sheet to record storage measurements for the crop specified on the *Yield declaration worksheet* (see reverse). Record the measurements of crop stored in round or square bins. Please record a test weight for each bin.

Round bins	Example	1	2	3	4	5
Circumference (C)	60.2 ft					
Height of crop, excluding upward cone (A)	14.5 ft					
Height and direction of cone (B)	6 ft, up					
Test weight	60					
Stored crop (in pounds)	228,405					

Square bins	Example	1	2	3	4	5
Height (H)	10 ft					
Length (L)	20 ft					
Width (W)	5 ft					
Test weight	60					
Stored crop (in pounds)	48,000					

Estimate and record the amount of crop stored in wagons. Please include crop stored for seed. Record a test weight for each wagon.

Wagons	Example	1	2	3	4	5
Test weight	60					
Estimated stored crop (in pounds)	480 lbs
